Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

How would anyone feel this is fair. We already pay way to much for the minutes to begin with. This is supposed to be an easier way to have a cell phone without all the hassles. Now you are adding that hassle. I feel you will lose allot of customers over this. Why on earth would you even think about it. You make allot of money off of it to begin with. There is allot of people out there that has your service. And this is a good way to loose all of them. Nobody wants to have service through some one that chages their policy.

My use of your phones is medical nessary and my children and i already spend lots of money just on your minutes. I think i already pay enough for your services.....

You don't like it when the gas company changes their prices do you?
think about it and be fair. Which you aren't.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Angela
